

CMPUT 301 - Meeting Minutes February 12th 2026:

Name call, everyone gives progress updates, potential issues.

What we are expecting to complete in the next week.

Ben Hall:

Both Bens doing CRC cards. So far progress looking good.

- ☐ Tip for CRC cards, make sure to markdown file, change excel into markdown file (preferred way) or convert to pdf if running out of time. CANT BE A LINK TO A CHANGEABLE FILE.
- ☐ Include link to finalized file with pdf link under submission.

Alex:

- ☐ UI mockups are separate from storyboard sequences (set up all screens and give major purposes, with different names, name in the style of blank blank activity, like HomeActivity). (Unified naming convention)
- ☐ Follow up with TA over reading week for feedback
- ☐ Storyboard sequence, make sure that we mark all user stories, shows which user story is involved with each sequence, ALL USER STORIES MUST BE INCLUDED in storyboard sequence.
- ☐ Convert Everything into PNG files and upload into wiki(separate page).

Kito showing user stories notes:

(Cant Hear :())

To conclude, by the deadline, need to see that the wiki page has been set up. Separate pages for each section listed below.

1: Product Backlog

2: Seperatepage/Storyboard/UI PNG images pasted directly in

3: OOA section in markdown file (new page in wiki)

4: Section, upload meeting minutes. (Notes like these)

Maybe double check format with TA before submission.
